

COERVER Center Of Excellence

If youth players are trained using the most effective soccer training methods in the world starting at the age of 7 years old, they will develop the sound technical foundation necessary to become exceptional players.

Coerver COE is a structured player development program designed to foster a competitive environment for talented players. This program will stimulate young players to develop at an accelerated rate while allowing them (and their families) to enjoy the benefits of continuing to play with their friends on existing teams. The more proficient our students become, the more fun they will have playing the world's most popular sport.

Our Advanced Youth Development Training Programs have been adopted by many of the world's top professional clubs and national federations over the past 30 years. Clubs like AC Milan, Real Madrid, Arsenal, Manchester United, Liverpool, Bayern Munich and Newcastle are just a few of the clubs that have partnered with Coerver Coaching to develop their next generation of talented and exciting young players.

Franz Beckenbauer
FIFA World Cup™
Champion Player and
Coach, Germany

"Coerver Coaching is a superb program. Ball mastery and good control is the foundation of the game and this program provides this for young players."

Anson Dorrance
FIFA Womens World
Cup™ Champion Coach,
USA

"I feel Coerver Coaching should be an essential part of a player's development. I use it for my World Cup squad, and it is equally as important for young children wishing to improve."

GERARD HOULLIER

Liverpool Coach and former Technical Director of French Football Association

"Coerver Coaching helps us produce the kind of technical players that can give our teams the winning edge."

COERVER CENTER OF EXCELLENCE Nytex Sports Center

Coerver Coaching Centers of Excellence is available for players ages 7 to 13 who are serious about improving their skills, knowledge and playing ability. Three COE Skills Academy programs will be available:

Mon or Fri	\$185.00/\$145.00 (returning)

Includes COE Coerver/adidas uniform (new students)

Coerver Coaching's Philosophy

Team systems and tactics are important, but they cannot fully compensate for poor control, inaccurate passing or other technical weaknesses. Ultimately, team organization is only as effective as the individual players in it. Our philosophy is based on the premise that the game consists of play between 2, 3 and sometimes 4 players, in various parts of the field and that team's success is determined by player performances in these exchanges. Consequently, we focus on improving the individual and small group play in these sequences especially in the formative years.

Coerver Coaching's Goals are to:

- Develop skilled, confident and creative players
- Make the game fun to practice and play
- Teach good sportsmanship and respect for all
- Value winning but not above character development & performance
- Provide Coerver Coaching to as many boys & girls and their coaches as possible

Benefits:

- Improves coordination, balance and flexibility
- Improves all aspects of ball control (technique)
- Helps confidence
- Develops more effective players (game intelligence)
- Can be adapted to suit all levels and abilities
- Improves speed (starting, sprinting, reaction)
- Encourages good sportsmanship, work ethic and behavior (personality)
- Enhances vision in games
- Promotes exciting attractive soccer
- Allows players to work on their own, as a form of soccer homework
